The November and KGA Board Meeting was cancelled and it is expected the December meeting will also be canceled. KGA continues work on grant application for modeling update and, potentially, a native yield study for the Kern Subbasin.

Mr. Hampton continued regarding the Data Management System (DMS) and the presentations

from Todd GW, GEI and Provost & Pritchard. Demonstrations were also provided to some interested landowners. The Board expressed interest in a DMS that could potentially include individual landowner access and accounts.
